World Scholar's Cup
Manila Not-so-Mini Global Round 2019
A Retrospective

Behind every achievement is a large group of indispensable people, seldom recognised but absolutely essential to our successes. These people deserve as much praise for their contributions as the praise we get for our triumphs, as we would not be victorious without even just one of them.

As such, I once again give my salutations, commendations, and love to everyone who made these achievements possible.

Sir **Gio Pastor**, WSC's coach of the year, and our delegation's coach of a lifetime. Your contributions to the triumphs of your students cannot be overstated. Thank you for believing in everyone in this delegation, and for considering the victories of your students as ones of your own!

My teachers, Miss **Nerissa Aumentado**, Miss Mylyn Botalon, Miss Melanie S. Victoria-Mendoza, Sir **Christian Tapuro** and Miss Christina Camacho for once again giving us invaluable instruction, in spite of tight schedules and hefty deadlines, to arm us with the wealth of knowledge that we needed to succeed.

+5

Testimony

Miss **Armie C. Ababa** and Sir **John Wraith**, for their steadfast and most appreciated support from behind the curtain. These achievements would definitely not be possible without your encouragement and approval!

My teammmates, **Marcela Dichosa** and **Alexandra Morelos**, as without them, I would never have been able to become something greater than myself. Through our hardships and victories, we forged a bond that will never be matched. Our team did outstanding this round. For that, I am beyond proud.

Actually, here's a list of the awards we got this round:

- 30th Place Team Challenge - Silver
- 34th Team Debate - Gold
- 7th Place Collaborative Writing - Gold (and Trophy!)
- 14th Place Team Bowl - Gold
- 7th Place Over-all Champion Team - Gold (and Trophy!)

We made it this far, out of 700 participants and 200+ Teams from 30 different countries!

My parents, **Salvador S. Mojica** and **Mylene De Ocampo-Mojica**, for things too many to mention, and too much to repay. I stand on the shoulders of giants because of your exceptional, and truly unwavering support.

The whole IB (and Southville) delegation, who have made their individual contributions in making this event amazing and fruitful for everyone. Rest assured that the little tidbits of advice I get from our conversations have not gone to waste.

+5

Testimony

The **World Scholar's Cup | Official Group**, whose collective genius thought of a competition that allows scholars to learn serious topics through not-so-serious ways. It's just so amazing how WSC can change the way people think and process things for the better. I can say for certain that I have never regretted, and probably will never regret joining this competition.

And once again, to everyone else who believed in us enough to keep us in their minds and hearts, thank you so much! You all have made a difference, and I will be competing with all of you in my mind and my heart as well.

We're doing this all the way 🦊
Thank you G for everything.

See you all at the Tournament of Champions
at **Yale University!**
