## SISC aces ISO recertification amid pandemic

Despite the challenges posed by the COVID-19 pandemic, Southville International School and Colleges (SISC) received its International Organization for Standardization (ISO 9001:2015) recertification from global standards inspection leader TÜV Rheinland last April 11, 2022. The audit was a combination of a remote audit and an on-site inspection to assure SISC's quality management systems are efficient, productive, and globally competitive.

The recertification covers all relevant areas of school quality including school management, curriculum, teaching processes, safety and security, among others, to ensure that SISC delivers value to its students and other stakeholders. The successful recertification attests to the school's ability to adapt to challenges and the demands for innovation as all its operation and processes continue to run smoothly even with the disruptions brought by the pandemic.
