# SISC ADOPTS AWARD-WINNING LEARNING TECHNOLOGY FOR AY 2022-2023

SISC will use IXL Learning, an adaptive English, Math and Science learning platform, to support blended learning this coming academic year. The IXL platform is a personalized digital learning space that covers thousands of skills aligned with the Common Core Standards incorporated in the school curriculum. It earned top honors in the EdTech Awards for "Best E-Learning, Blended, or Flipped Learning Solution."

IXL works by offering skills that students practice, one at a time, earning them points and ribbons when they get questions correct. A student is awarded a stamp once 100 points are collected for a certain skill, and a virtual prize once multiple skills are mastered. The SmartScore goal, as it's known, helps keep students focused and working toward a target.

SISC English, Math, and Science Teachers and Subject-Area Heads have thoroughly reviewed IXL Learning, tested its alignment with the English, Math, and Science curriculums, and assessed its contribution to student achievement. Its rigorous activities help learners build a strong foundation of knowledge, understand problems in multiple contexts, and prepare themselves for higher-level thinking.

**Congratulations to our Grade 4 IXL completers!**

## ONLY STUDENTS ARE ALLOWED IN SMART SESSIONS

Parents and guardians of enrollees in onsite SMART Summer Programs are allowed to bring their children only up to the gate and cannot accompany them in their sessions. This is in observance of current public health protocols and to promote independence and self-reliance among our children.

Parents and guardians who wish to conduct business or seek an appointment with the school officers, teachers, or staff must proceed to the Public Relations Office in Luxembourg Campus where a schedule will be arranged for them.

Thank you for your cooperation and compliance as we work to transition back to campus safely.

# SOCIAL-EMOTIONAL LEARNING (SEL) CORNER

## 5 Fun Ways to Stay Social and Build Emotional Intelligence this Summer Break

### TAKE CARE OF THE WORLD AROUND YOU.

Enjoy a walk out in nature at a park or trail and help keep it clean by getting some gloves and a trash bag and picking up litter.

### BUILD, DRAW, CREATE!

Make a list of imaginative things you can do on rainy summer days! Try origami, learn an instrument, build a cardboard robot, make up a new dance!

### BECOME AN EXPERT!

Pick one thing to get really good at! Maybe it's baseball, drumming, baking or computers. Summer is a great time to explore and get some know-how!

### MAKE SOMEONE SMILE!

Think of three people you're thankful for. Make something for them, write them a card, or just tell them what they mean to you. You'll feel as good as they will!

### GROW STRONG AND HEALTHY!

Ditch the soda, candy, and potato chips. Learn to make some healthy meals and cook some for your family. Play some basketball, jump rope, or go for a walk.
