# Hand- Foot -and- Mouth-Disease

Hand-foot-and-mouth disease is a mild, contagious viral infection common in young children but anyone can get it.

## Symptoms

### Fever and flu like symptoms

Fever and other flu like symptoms appear 3-5 days after catching the virus.

### Mouth sores

Sores usually start as small red spots often on the tongue and inside of the mouth.

**Skin rash**  
The rash is prominently seen in the palms of the hands and soles of the feet but it can also show up on the buttocks, legs, and arms.

## When to see a doctor

- 1 When the child is not able to drink normally
- 2 When the child is not alert and responsive
- 3 When symptoms do not improve after 10 days
- 4 When symptoms are severe
- 5 When the child is very young, especially younger than 6 months

## Prevention Tips

Clean and disinfect frequently touched surfaces like door knobs and shared items like toys.

Avoid touching your nose, eyes and mouth with unwashed hands.

Avoid contact with sick people.
