

Southville International School and Colleges

STUDENTS AND PARENTS' BULLETIN

July 14, 2023 - SPB #40 A.Y. 2022 - 2023

YEAREND MESSAGE OF PRINCIPAL

Dr. Marie Vic F. Suarez
K12 AND IB PRINCIPAL

We did it! The past academic year was our first full year back in Southville International School and Colleges (SISC) following the campus lockdowns, and we were able to overcome all challenges up to the end. We had lots of “catching up” to do after several years of reduced interactions, and it has been delightful to see all students taking advantage of our full school programs from the Comprehensive

Growth Series to Sport Intramurals to the Junior-Senior Prom and everything in between. The recent Graduation and Recognition Days were a truly celebratory and fitting way to end the school year!

So much has happened, so much has been restored, and so much energy abounds that it is hard to recall the doldrums of the previous years. I am hopeful that all students feel proud of everything that they were able to accomplish this year that helped them become an even better version of themselves. Whether you explored the wonders of literature, delved into the mysteries of numbers, or dived into the world of science, your thirst for knowledge has been inspiring and opens doors to new possibilities. You have also exemplified kindness and empathy, offering a helping hand and displaying compassion in the classroom.

The school would be nothing without our dedicated teachers, and I thank each and every one of you for all that you do for our students. You have gone above and beyond expectations to ensure their academic growth, emotional well-being, and overall development. The learning you plan, the environment you create, and the relationships you foster are what make SISC truly exceptional. It was meant to be a comeback year and your passion for education made it happen. Together, we have navigated uncharted waters, and together, we have triumphed!

It has been wonderful to see home-school partnerships thriving again as pandemic restrictions ease. We have felt the parents and guardians' constant and consistent commitment in maintaining a sense of structure and routine for our students in a year full of twists and turns. You have contributed in ways small, large and unimaginable, and we look forward to our continued work together as we challenge ourselves and our students to set the highest standards and achieve the most ambitious goals. Thank you for choosing SISC to share in your children's growth.

It has definitely been a team approach that has allowed our school community at SISC to maintain focus and flourish during this unprecedented period. It is so nice to finish the school year on campus, and gives us the hope and motivation for another great year ahead. As the curtain comes down on academic year 2022-2023, let us carry forward the lessons we have learned, the bonds we have formed, and the memories we have created. We have been reminded, as if we needed to be, how strong we are as a community, how capable our students are, and how creative we can be when we need to be.

Have a restful break and see you in September!

MONARCHS WIN IN SCIENCE OLYMPIAD

JENICE BEATRICE ROQUE
4 - LOVE

BONHYEON KOO
10 - COMMITMENT

NICOLAI ISAAC EUSEBIO
5 - TRUSTWORTHINESS

RYMMEL RENZO MACAPAGAL
7 - RESILIENCE

CHAE YEON HONG
7 - RESILIENCE

SIYOUN KIM

9 - COMPASSION

JIWON JIN
11 - COMPETENCE

CHIARA HERNANDEZ
9 - COMPASSION

INSEO KIM
11 - EXCELLENCE

GRACIELA GONZALEZ
8 - INTEGRITY

Eleven grade school and high school students earned awards at the final round of the 2023 Hong Kong International Science Olympiad (HKISO) that tested mastery of content in Physics, Biology, Chemistry & Integrated Science. Jenice Beatrice Roque of Gr.4 - Love and Bonhyeon Koo of Gr. 10 - Commitment both won gold medals for placing in the Top 8% of their grade level.

Getting the silver award were Nicolai Isaac Eusebio of Gr. 5 – Trustworthiness, Rymmel Renzo Macapagal and Chae Yeon Hong of Gr. 7 – Resilience, Siyoun Kim and Janellah Santos of Gr. 9 – Compassion, and Jiwon Jin of Gr. 11 – Competence after finishing in the next 16%, while Chiara Hernandez of Gr. 9 – Compassion and Inseo Kim of Gr. 11 – Excellence obtained a bronze medal for belonging in the next 24%. Graciela Gonzalez of Gr. 8 – Integrity, meanwhile, got the merit award in the contest organized by the Olympiad Champion Education Centre in Hong Kong.

LEARNING VILLAGE OFFERS EARLY LITERACY PROGRAMS

The Learning Village in STAR Campus takes the lead in summer learning by holding Early Literacy Classes from July 24 – August 18, 2023. Children from 1.8 to 4 years old may join the program full of stories, songs, crafts and lots of Early Literacy fun! For more information, please contact Ms. Geraldine Medina at 8842-8811.

EARLY LITERACY CLASSES

Starts on
July 24, 2023 to August 18, 2023

VARSITY SPORTS SUMMER TRAINING

To keep student athletes on track and get them ready for high level play, Southville Athletics is offering training for former varsity players and prospective members of the varsity teams. The training sessions aim to support their physical and competitive fitness so they will come back stronger for future competitions.

The course is available to anyone interested in carrying the school's name in basketball, football and volleyball tournaments.

For more information, please contact Coach Rory at rory_mansbridge@southville.edu.ph.

SOCIAL-EMOTIONAL LEARNING(SEL) CORNER

TEACHING YOUR CHILD A POSITIVE SELF-TALK

"We all think negative things from time to time. But consistent negative self-talk can be discouraging and self-defeating."

Encourage them to notice negative self-talk, then pause. Instead of accepting it, **challenge it**. Give them these questions to reflect on:

- 💡 "Are my thoughts based on facts or my interpretations?"
- 💡 "Would I say this to my best friend or someone I care about?"
- 💡 "Is thinking this way helping me achieve my goals? Is it helping me feel good?"

After challenging their inner critic, **your child can change their negative thought into a more neutral one.**

I'll never be able to do this ➡ I'm resourceful and persistent. How can I break this into small pieces and solve the problem?

I'll be bad at this ➡ I can try this even if I'm not an expert yet.

I made a mistake and embarrassed myself. ➡ Mistakes are normal. I've dealt with them before and I can deal with them again.
