Securing Tomorrow's Promise: A Comprehensive School Safety Assessment

Safety in schools is crucial for ensuring that students and staff can learn and work in a nurturing, inclusive and secure environment. This includes physical safety, such as protecting students from violence and accidents, as well as emotional safety, such as preventing bullying and promoting mental health. A safe and secure school environment also helps to create a positive and productive learning environment, where students can focus on their studies and achieve their full potential. Additionally, providing a safe and secure school environment can also help to build trust and engagement between the school and the community.

SISC is conducting a School Safety Check-up through this simple survey. We are sending a school safety checklist to hear the voices of our students, parents, teachers and staff about how they perceive the safety in our school.

Please answer this school safety checkup as honestly as you can. Rate the following components with 5 as the highest and 1 as the lowest.

“

I started my Southville journey as a kindergartener. The values and education that I learned in Southville helped me navigate the world and what it has to offer. The SISC motto “We Can Make a Difference” is something I will always bring with me. I made it my personal motto and it helped me as I finished high school and college. I can even proudly say that the same motto still guides me in adulthood. I will always be thankful to the educators of Southville for guiding me and molding me into the person that I am now.
