SISC offers college credits to SGEN SHS students

Southville International School and Colleges (SISC) has launched the SHS College Advanced Placement Program (SCAPP) that allows senior high school students from the Southville Global Education Network (SGEN) to earn college credits while still in high school. They can earn general education college credits in Mathematics in the Modern World, Purposive Communication, Entrepreneurial Mindset, and Living in the IT Era before even starting at SISC College, thus saving them time and money.

To automatically qualify for the credit, a student must be a graduate of any of the SGEN schools with a grade of VS (Very Satisfactory) in the SHS equivalency subjects. They can also take the Advanced Placement Examination (APE), with a score of at least 91% earning them full credit for the corresponding subject. This credit will be reflected in their transcript of records (TOR) and will also be used for the computation of their Latin honors in college.

Empowering Tomorrow's Leaders: High School Students Engage in Generation Global

Understanding and appreciating diverse perspectives has become an essential skill for future leaders in today's world. Generation Global is an initiative that gathers high school students from around the world to engage in cross-cultural dialogue, fostering empathy, understanding, and collaboration on an international level.

From November 6-10, students from seventh to twelfth grades participated in the third SGENeration Global. The event aimed to provide students with the opportunity to build camaraderie, interact with their peers and engage in respectful dialogue on a range of topics. The event also aimed to promote key skills for international-mindedness and global citizenship, such as information technology, cooperation, conflict mediation, reflection, global awareness, and identity literacy. The dialogue was hosted online by facilitators from different SGEN schools.

The topics of the dialogue revolved around the United Nations' Sustainable Development Goals (SDGs), specifically the 5Ps: Planet, Peace, Prosperity, People, and Partnerships. The Gen G moderator, Sir Cedrick Velasco, provided training for the participants to prepare them for the dialogue.

Securing Tomorrow's Promise: A Comprehensive School Safety Assessment

Safety in schools is crucial for ensuring that students and staff can learn and work in a nurturing, inclusive and secure environment. This includes physical safety, such as protecting students from violence and accidents, as well as emotional safety, such as preventing bullying and promoting mental health. A safe and secure school environment also helps to create a positive and productive learning environment, where students can focus on their studies and achieve their full potential. Additionally, providing a safe and secure school environment can also help to build trust and engagement between the school and the community.

SISC is conducting a School Safety Check-up through this simple survey. We are sending a school safety checklist to hear the voices of our students, parents, teachers and staff about how they perceive the safety in our school.

Please answer this school safety checkup as honestly as you can. Rate the following components with 5 as the highest and 1 as the lowest.

THINGS TO SAY WHEN YOUR CHILD TALKS BACK

Instead Of

"Stop talking like that, you're being rude!"

"I'm not listening when you are talking like that!"

"Go to your room and calm down!"

Try

"I understand you are not happy with that decision. It's okay to be upset about it. We still need to speak respectfully to each other."

"In order for me to understand where you are coming from, we need to communicate with each other differently. Should we try that again?"

"We're both feeling frustrated right now. Let's take some time to calm down and try again. I'll be in the kitchen when you are ready."

All behavior is **communication**.

When a child acts rudely, try to **understand what's really behind it**.

Stress, anxiety, family dynamics, and the need for attention can cause challenging behavior. Always give them the benefit of the doubt; unmet emotional needs, communication challenges, or limited life experience might drive their behavior.
