## Behaving in Ways that are Enhancing of Friendly Relations

These are behaviors that promote and strengthen friendly relationships within the school environment.

*by Riley's Way*

### TRUST

Being honest with each other and keeping each other's confidence. When friends trust one another, they feel safe sharing their thoughts and feelings without fear of judgment or betrayal. This kind of security helps friendships grow stronger over time.

### COMMUNICATION

Good friends talk about how they feel, share their experiences, and listen to each other without interrupting or judging. Being a good communicator also means expressing when something is wrong and being open to hearing your friend's side too.

### BOUNDARIES

Healthy friendships respect each person's boundaries. This includes giving each other space, respecting privacy, and understanding when a friend needs time alone or support. Knowing when to step in and when to step back shows maturity and strengthens mutual respect in the relationship.

### MUTUAL RESPECT

Strong friendships are built on mutual respect. Friends may not always agree, but they value each other's differences and opinions. Even during disagreements, respectful friends listen to understand and continue to support one another's growth and well-being.

### REPAIR

Even the best friendships can face conflict. What makes them strong is the ability to repair the relationship after a problem. Apologizing, taking responsibility for mistakes, and working together to rebuild trust are all important parts of maintaining a lasting and meaningful connection.
